CERTIFICATION

Udemy - 2018

Learn figma | UI/UX design essential training

WORK EXPERIENCE

Software Engineering Immersive

General Assembly - Melbourne | 2020- 2020

12-week intensive Full-stack boot camp covering both web development fundamentals and current industry-leading tools and techniques. Learned and practiced HTML, CSS, JavaScript, Ruby on Rails, Node.js, PostgreSQL, Sinatra, React.js, jQuery, Bootstrap, underscore.js, postman and many more. Created 3 big and 4 small projects using these tools.

Business manager | Retail Team Lead

7-eleven Stores - Melbourne | 2017- 2020

While looking for ideal work for my skills and experience, I enjoyed working as a store manager at 7-eleven. I learned about the retail industry, about people and culture, gained experience in leading a team of more than 12 members. Found my feet in Australia while supporting my family to settle in new country.

Project Engineer

Larsen and Toubro Ltd. | 2010 - 2017

Managed packages up to \$90 million In EPC projects valued \$800 million to \$1100 million. Assuming a role of package manager, took responsibility of packages from concept to handover. Managed team of up to 8 junior engineers and drafts person to deliver packages. Resolved technical challenges by meticulous thinking analytical skills. Added values by optimising, standardising and recording lessons learned.

EDUCATION HIGHLIGHTS

General Assembly - Melbourne - 2020

Software Engineering Immersive

-PROJECTS

-Web based utility application: A common application including to-do lists, reminders, polls, and appointments that can be shared between users and updated in real time.

Technologies - ReactJS, NodeJS, PostgreSQL, GitHub, and Heroku.

-HR Background portal: A portal to upload credentials, certificates and necessary detail for HR to conduct background verification.

Technologies - HTML, CSS, JavaScript, NodeJs with PostgreSQL, Ajax and GitHub.
